

AlfredoMarin

PhD candidate

✉ alf.reismarin@gmail.com ☎ +55 (11) 941 256 770
🌐 [alfroids](#) 🆔 0009-0008-3953-5201 📍 São Paulo, Brazil

EDUCATION

UNIVERSITY OF SÃO PAULO | *PhD*

2025 - ongoing @ São Paulo, Brazil

- Genetics and Evolutionary Biology
- Supervised by Diogo Meyer
- Computer and mathematical modeling of multilocus balancing selection with applications to the HLA genes
- Funded by FAPESP

UNIVERSITY OF SÃO PAULO | *bachelor's degree*

2019 - 2024 @ São Paulo, Brazil

- Molecular Sciences
- Specialization in Evolutionary Genetics
- Cum. GPA: 3.242 / 4.0

COLÉGIO BANDEIRANTES | *high school*

2015 - 2017 @ São Paulo, Brazil

- Exact sciences class
- Programming and Spanish extracurricular courses

PROJECTS

UNDERGRADUATE RESEARCH | *population genetics*

August 2022 - December 2024 @ University of São Paulo

- Supervised by Diogo Meyer
- A population genetics analysis of *Dictyostelium discoideum*'s greenbeard genes: assessing genetic diversity, population structure and balancing selection
- Funded by FAPESP

RESEARCH INTERNSHIP | *evolution of altruism*

April 2024 - August 2024 @ University of Bath

- Supervised by Jason Wolf
- Funded by FAPESP (2023/18038-6) as part of my undergraduate research project
- Unraveling the polychromatic greenbeard effect: *Dictyostelium discoideum*'s *tgr* genes through the eyes of balancing selection

SKILLS

LANGUAGES

Portuguese • English • Spanish

PROGRAMMING

Experienced

Python • R

Familiar

L^AT_EX • Shell

TOOLS & SOFTWARES

Git • Godot • Spreadsheets • SLiM

SLIM WORKSHOP | simulation software

June 2024 @ University of Edinburgh

- Lectures by Ben Haller

LATTICE MODELS & BIOLOGY | minicourse

November 2023 @ ICTP-SAIFR / IFT-UNESP

- Lectures by Ricardo Martinez-Garcia and Luisa Ramirez
- Applications in ecology and neuroscience

USPGAMEDEV | game development

April 2023 - June 2023 @ University of São Paulo

- Colorz: a puzzle game with paint
- Developed using the Godot game engine
